MESSAGES OF FRIDAY 22nd AUGUST 2025
GROTTO 'MOST HOLY MARY OF THE BRIDGE' – PARTINICO (PA) ITALY

THE MOST HOLY VIRGIN MARY

My children, I am here in your midst today too with great power, even though trials, sufferings very often afflict you, weigh you down, when you come here your hearts begin to rejoice because here My presence is very powerful, whoever comes here is consoled by My love, the air you breathe here fills your soul because here evil is not present even if it seems like an abandoned place but you will always find purity, because **the Archangels protect this place, this Grotto, the Grotto that has guarded My Statue for centuries, the same statue that is guarded in the Sanctuary, to many all this is a legend but your hearts know that what is being told is the truth. They contended for My Statue at that time, they had understood that it was miraculous, it was mysterious, because many testimonies have told incredible things. More than once I placed Jesus in the arms of those who took care of My Statue, I walked in front of many eyes, all this has happened over these centuries, even when they studied it they never found it in the same place, from the great fear they gave up and did not continue anymore.**

My son **John Little Hat** was the first to whom I revealed the importance of My Statue telling Him everything, even though **John** was too young to understand, He was able to testify because He let himself be guided by My words believing everything without ever doubting, that is why He lived here Miraculously by **God the Father Almighty's** will, his story is extraordinary because it belongs to the future, it will be understood that to **God the Father Almighty** nothing is impossible, He has always sent the Angels to earth, He has always showed His presence in the world but man most of the time only believes what he sees, and when he believes what he does not see he gets confused quickly, My children the heart speaks the truth, it is what you have to follow not your mind, in the hearts there is the constant presence of My Son **Jesus**, nothing can change this, that is why you are often torn, your mind follows what it often sees leading you to make many mistakes with yourselves, with those around you, all this is the work of evil that wants to hinder **God the Father Almighty's** designs, therefore my children be perseverant always.

My children, when many prophecies will be confirmed this place will be known all over the world, many will come from Jerusalem to lay their foot on My Footprint, you will understand how great this project revealed first to you is.

I love you, I love you, I love you, many hearts have received a great joy, many of you have felt a strong emotion, confirm my children.

With great simplicity Little Hat lived all this, the world will know him soon, but I ask You to persevere, I gift you the strength. Today too this mission has come to an end as God the Father Almighty wished, I will wait for you My children for the next mission, earn the joys in order to live what the little Shepherd has lived.

I love you and I bless you all, in the name of the **Father**, of the **Son** and the **Holy Spirit**.

Shalom! Peace my children.
